

Proposed Resource and Shoreland Protection Zones

LEGEND

- FIRM floodplain zone
- 250 foot shoreland zone
- 75 foot stream protection zone
- 250 foot resource protection zone
- Existing resource protection zone
- Wetlands > 2 acres
- Other non-forested wetlands
- Other forested wetlands
- Existing public and private open space
- Public lands in adjacent towns

75 foot stream protection zone based on approximate locations of streams as shown on 2003 color orthophotos.

250 resource protection zone based on SPO wetland characterization and IF&W wading bird habitat data.

Wetlands from USF&WS National Wetland Inventory maps.

Hydric soils have less than 3 feet depth to water table.

Floodplain zone is based on FEMA Federal Insurance Rate Maps.
